Younger Children—Activity Sheet

Do this activity as a group, with each child selecting one color of a dot marker or stamp pad. Each child will need a copy of a fish (have them put their name somewhere on their page—not on the fish).

Invite the children to think of something that they can do personally to help others and share it with the group. Have them stamp their thumbprint and add a few “scales” to the fish (2–3 thumbprints). Invite them to look at their thumbprints and think about what they shared about how they can help others.

Then, have each child pass their paper to the child beside them. Each child will add their thumbprint as scales to the new fish. Have them pass their papers again until their thumbprints are on each fish.
