

MAKE A PAPER PLATE ADVENT WREATH

- ◇ Using the model to the right, cut out four "candles" from the center of the plate.
- ◇ Fold the candles so that they stand upright.
- ◇ Decorate the perimeter of the plate to resemble greenery, and color the candles to match the color that your church uses (usually purple/pink or blue).
- ◇ To "light" the candles, cut out flame shapes from yellow sticky-notes and adhere them each week.
- ◇ A small white electric votive or tea light can be placed in the center of the wreath for the Christ candle.
